Dear Families,

You play an important role in your child's academic success. Our goal is always to give you the information you need to be an informed and active partner in your child's education. For this reason, we are pleased to share ARIS Parent Link (APL) with you. APL is a new online tool for parents, available in nine languages, that provides you with detailed information about the academic progress of your child and our school.

APL includes your child's attendance records, course grades, scores on state tests and in-class assessments, as well as school Progress Reports, Quality Reviews, and survey results. This information is collected from multiple sources and stored in one centralized location. A record of your child's progress will continue to grow as your child progresses toward high school graduation.

**Tutorial Information:**

APL also includes a series of tutorials that explain your child's assessment information and how teachers may use it to assist in your child's learning. The tutorials explain:

- What is this information?
- Why does my child take this assessment?
- How did my child perform?
- How can I help my child succeed?

**APL Access:**

In the attached packet, you will receive two letters containing information for how to log in to APL. One will contain your child's Student ID number and the other will contain your temporary APL password. If you have more than one child enrolled in school, each child will have a separate APL account accessed individually by each child's Student ID and temporary password.

**Parent Training Sessions:**

Once you receive this information, go to [www.arisparentlink.org](http://www.arisparentlink.org) to log in to APL. APL is accessible around the clock from any computer with Internet access. To arrange for free computer use and support, please talk to our Parent Coordinator Margaret Lloyd at 1-347-563-4680 to set up a time to use a school computer. You can also have the option to visit your local library.

**Password Security:**

After you have logged in, you will be asked to create a permanent password for security reasons. To ensure confidentiality, please do not share your password. If you need help logging in, you can use the "Password Help" feature on the APL home page.

We hope that APL becomes a valuable way for you to participate in your child's education and we invite you to discuss the information and data about your child with us. If you have questions regarding APL, please contact Ms. Margaret Lloyd, our Parent Coordinator at (347)563-4680.

Sincerely,

Gregg Korrol,  
Principal
