

In order to keep groups small (approximately 12 students), students are being asked to write down four choices of courses they would like to be in.

We will try to give everyone one of his or her choices, however, due to size restrictions, there may be instances where this is not possible. Placement is on a *first come, first serve* basis followed up by a lottery if needed. The deadline for submission is **Monday, October 24**. If a student does not receive one of his or her choices, a conference will be held with the student to select the next possible option.

First and Last Name:

Teacher _____

Class _____

Please write the number and title of each course on the line.

(*ex: 1 --Board Games*).

Please list four course choices of courses you would like to be involved in. **You may not switch/change from the course to which you are assigned**, so make sure to list courses you would enjoy being involved in. If this is not done properly (as specified by the example above), your form will be placed last in the selection system.

My choices are:

1) _____

2) _____

3) _____

4) _____

P.S. 101
The Verrazano
School
“Bridging Education
and the World”

5th Grade
School Enrichment
Classes
2011-2012

As part of the School Enrichment Program, for approximately 12 weeks, 5th graders will spend the last 2 periods each Friday involved in a curricular course designed to fit the individual interest of the child, yet infused with curricular needs. As part of this model, students will select one course which they would like to be involved in for 12 weeks. Every Friday, periods 7 & 8, students will meet with their "Guide" who will teach them based on a pre-designed curriculum geared towards their special interest. Various subject areas will be brought into the chosen course in order to meet the necessary standards of 5th grade. Each course will consist of approximately 12 students in order to provide for small group interaction.

Courses

1) Board Games

Are you tired of playing the same old video games?
Come join us and rediscover the exciting world of board games!
Plan strategies for games like Battleship and Stratego!
Try to take over the world in Risk!
