

Los Padres Scholarship Winners

In their own words.

Alejandra Cordero:

April 2010

From the beginning I have worked to have a successful high school career. Now I finally get to experience all the opportunities that come from this hard work. It is an honor to have been chosen, out of the many students that applied, as a recipient of the Los Padres Foundation Scholarship. This foundation is great in helping under privileged Hispanic students beat the odds and further their education. Receiving this scholarship has boosted my confidence and has added to my drive to continue my success into college.

Stephanie DeFrank

I applied for the Los Padres Scholarship because of my family's financial instability. Through dedicated work I was able to receive this scholarship. The Los Padres Foundation is a very family oriented organization. From what my sister has told me, you get to go to their house during spring break and meet the rest of their family. They have this reunion every year for the scholarship winners.
